Roll No.:S046	Name: Abhishek Yadav
Class: BSC IT	Batch:-----
Date of Assignment:18/8/2026	Date/Time of Submission:18/8/2026

Aim: Read a CSV file and calculate basic statistics for each numeric column. Use the scala-csv library or similar tools.

Code:

```
build.sbt  Demo20.scala x
3  object Demo20 extends App {
4      val file = Source.fromResource("iris.csv")
5      val data = file.getLines()
6          .drop(1)
7          .map(line => line.split(",")(0).toDouble)
8          .toList
9
10     file.close()
11
12     val count = data.length
13     val mean = data.sum / count
14     val min = data.min
15     val max = data.max
16
17     val variance = data.map(x => math.pow(x - mean, 2)).sum / count
18
19     val std = math.sqrt(variance)
20
21     println(s"Count: $count")
22     println(f"Mean: $mean%.2f")
23     println(f"Minimum: $min%.2f")
24     println(f"Maximum: $max%.2f")
25     println(f"Standard Deviation: $std%.2f")
26     println("\nAbhishek_S046")
27 }
```

Output:

A screenshot of a terminal window with a dark background. On the left side, there is a vertical toolbar with icons for navigating through the output (up, down, first, last, search, and delete). The terminal text shows the execution of a Java program, displaying statistical data: Count: 150, Mean: 75.50, Minimum: 1.00, Maximum: 150.00, and Standard Deviation: 43.30. Below this, the username 'Abhishek_S046' is displayed, followed by the message 'Process finished with exit code 0'.

```
"C:\Program Files\Java\jdk1.8.0_341\bin\java.exe" ...  
Count: 150  
Mean: 75.50  
Minimum: 1.00  
Maximum: 150.00  
Standard Deviation: 43.30  
  
Abhishek_S046  
  
Process finished with exit code 0
```
